FY2025-26 Outlook

The investment environment for stressed real estate in India remains highly attractive. NCLT case resolution timelines have improved, and the RBI Prompt Corrective Action framework continues to surface high-quality distressed assets. We target deploying an additional **Rs.80-100 Crore** in FY2025-26 across 3-4 new real estate positions and 3 startup investments.

RE-05 (Mumbai) and RE-06 (Pune) are on track for full exit in H1 FY2025-26. Combined projected proceeds: approximately **Rs.55-60 Crore**, funding the 4th investor distribution. The startup portfolio is expected to see 1-2 follow-on rounds providing NAV uplift, with a target of **Rs.1,480-1,520 per unit by Q2 FY26** — consistent with the 18% p.a. IRR trajectory.

> **Target NAV by March 2026:** Rs.1,480 to Rs.1,520 per unit — implying 8.9% to 12.0% appreciation from current levels, in line with the fund's 18% p.a. target IRR.
